

## Round Manhole with Ribbed Without Pressure

### Product Introduction

Compared with the ordinary atmospheric manholes, the cover design of the sanitary ribbed manholes is unique. The cover is easy to open, and it can be opened 180 degrees and rotated 360 degrees. The sealing ring is installed on the cover, which can meet the hygienic requirements of food tanks and other ordinary tanks. Due to limited pressure resistance, this manhole can only be installed on the top of the tank.
