

Round Manhole Cover with Sight Glass

JOF-MHRWSG

Product Introduction

J&O Round Manhole Cover with Sight Glass Non-pressure manhole is the most common manhole, which fits the non-pressure tanks. It is generally installed on the top of the tank. It is the entrance and exit for production workers and maintenance workers when building, cleaning and pouring tanks. The strength and sealing performance of manholes are key technologies, but only for pressure manholes. The requirements for strength and sealing performance of non-pressure manholes are secondary.
